

## HUMAN IMPACT ON TREES | VOCABULARY

*seed* what is planted in the ground to begin a tree's life

*sapling* a young tree

*natural resource* something we can use that is found in nature

*oxygen* the gas we breathe in, necessary to survive, produced by trees

*carbon dioxide* the gas we breathe out, what trees "breathe" in

*deciduous* type of trees that lose their leaves in winter

*coniferous* type of trees with needle shaped leaves; do not lose leaves in the winter
