

CODING WITH BEE BOTS | ADDITIONAL VIDEO RESOURCES

Busy Bees! | SciShow Kids

Duration: 3:59

This video provides a fun and engaging overview of bees and bee behavior! It also describes two types of bees, our native bumblebees and honeybees.

Video Reflection Questions:

- What are some of the major differences between honeybees and bumblebees?
- What are the jobs of bees in a hive?

The Power of Pollinators

Duration: 6:16

Meet some wild bees! This video introduces viewers to many different types of native bees and explains why they are just as important, if not more important, than the honeybee. It also talks about things that we can all do to help protect and care for bees.

Video Reflection Questions:

- Why are native bees important for the environment?
- How can you help protect native bees at home or school?
