

Parent Take-Home Guide

SUSTAINABLE ENERGY AND ENGINEERING: WIND

Overview:

Today, 'Change is Simple' joined your students' class. 'Change is Simple' is an organization that teaches students about science, sustainability, and the world around them. We visit the school multiple times each year with exciting new science topics! Our program is fun, engaging, and interactive for all students.

ACTIVITIES

To kick off today's lesson, students got up and moving with "Change is Simple's Energy Yoga!" They learned six poses that represent the natural resources we can use to generate electricity. Next, they put their engineering skills to the test, and built a working 6ft tall wind turbine. When the blades spun, a small lightbulb lit up!

SUPPORT

Switching your energy usage from fossil fuels to renewable energy may seem daunting, but it is possible! Companies like National Grid and Mass Save offer (free) home energy audits, where someone will come to your house and show you how to make your home more energy efficient. Mass Save (www.masssave.com) also offers rebates for using energy efficient appliances in your home!

LESSON NAME

Resumen

Hoy, 'Change is Simple' ha visitado la clase de su estudiante. 'Change is Simple' es una organización sin fines de lucro que enseña ciencia y sostenibilidad de una manera interactiva y divertida. Durante este año visitaremos el colegio varias veces con nuevos y fascinantes temas científicos. Nuestro programa es divertido, atractivo e interactivo para estudiantes de K-6to grado.

ACTIVIDADES

Ut tortor pretium viverra suspendisse potenti nullam. Vel elit scelerisque mauris pellentesque pulvinar pellentesque habitant. Elit scelerisque mauris pellentesque pulvinar pellentesque habitant morbi. Cursus turpis massa tincidunt dui. Netus et malesuada fames ac turpis. Eget dui at tellus at urna condimentum mattis pellentesque. Nibh sit amet commodo nulla facilisi nullam. Nulla facilisi cras fermentum odio eu feugiat pretium nibh ipsum.

APOYO
