

## BIODIVERSITY | ADDITIONAL READING RESOURCES

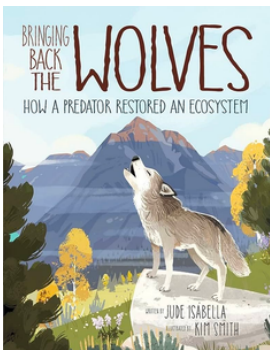

**What if there were no lemmings?:** Suzanne Buckingham Slade

ISBN: 9781404863965

Lexile: 860L

*Description:* The tundra ecosystem is vast, covering a large part of the far north. Countless animals and plants live there. So what difference could the loss of one animal species make? Follow the chain reaction, and discover how important lemmings are.

**Who Needs a Swamp?:** Karen Patkau

ISBN: 9780887769917

Lexile: Age: 7-10

*Description:* The swamp ecosystem is often forgotten about and ignored. Swamps are drained for farmland, while polluted runoff is drained into swamps which ruins the habitats of many animals. This book is a non fiction picture book that goes into detail describing the swamp ecosystem, including the plants and animals that live there, how we depend on it, and how we are impacting it.
