

HABITAT | ADDITIONAL VIDEO RESOURCES

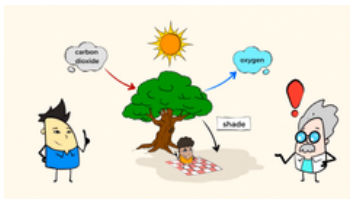

[Habitats for Kids | Kids learn about Tundra, Desert, Grasslands, Forests and More | Science for Kids](#)

Duration: 15:05

Video Description: Get ready to explore different habitats found all over the globe! Students will learn all about the tundra, desert, grasslands, forests, and more. Look at animals, learn how they survive, and understand why their habitat is important to their survival!

Video Reflection Questions:

- What is a habitat?
- What different kinds of habitats exist?

[Why Do Living Things Change their Environment? | MightyOwl Science | Kindergarten](#)

Duration: 6:30

Video Description: Explore how animals, plants, and people change the Earth's environment. Some changes are good but some aren't.

Video Reflection Questions:

- Besides beavers and people, what other animals change their habitat? Why?
