

HABITAT | ADDITIONAL READING RESOURCES

National Geographic Kid Readers: Animal Homes (Prereaders): Shira Evans

ISBN: 9781338809589

Lexile: 340L

Description: Young readers learn all about animal abodes — from cozy dens to towering trees — in this pre-reader from National Geographic Kids. Through text features such as a vocabulary tree and wrap-up activity, kids will be introduced to vocabulary in concept groups, helping them make connections between words and expand their understanding of the world. Along with brilliant photos and a fun approach to reading, National Geographic Readers are a winning formula with kids, parents, and educators.

Whose Habitat Is That?: Lucile Piketty

ISBN: 0711254443

Description: A beautiful pop-up book as you've never seen before. Swing through the lush jungle canopy, crunch across the glittering ice floes, prowl through the savanna grasslands. In each habitat, a wild creature hides. Can you guess who they are from the clues they give about themselves? Lift the spectacular spiral pop up to reveal the answer and meet each magnificent animal in its home. Children learn what the animal eats, where it lives, what it looks like and what animal family it belongs to, as well as some quirky and funny facts about it. The reader then reveals by pulling up a tab on the opposite page, a creature suspended on a sturdy but invisible plastic cord. The creature appears in a whirlwind of spiralling paper at home in its natural environment. At the animal's feet is its name and so the pop up reveals the answer in a uniquely beautiful and satisfying way.
