

EXTENSION ACTIVITY | RENEWABLE OR NON-RENEWABLE?

INSTRUCTIONS: Change is Simple taught you that natural resources are either renewable or non-renewable. **Renewable** resources are resources that are continuously replenished. **Non-renewable** are finite, and humans use them faster than available, which means we could run out! Based on the following definition, write a **R** in the boxes with renewable resources and an **NR** for nonrenewable boxes. The first one has been done for you!

<div>R</div> <div></div> <div>Wind</div>	<div></div> <div></div> <div>Chickens</div>	<div></div> <div></div> <div>Oil</div>	<div></div> <div></div> <div>Gemstones</div>	<div></div> <div></div> <div>Copper</div>
<div></div> <div></div> <div>Soil</div>	<div></div> <div></div> <div>Water</div>	<div></div> <div></div> <div>Vegetables</div>	<div></div> <div></div> <div>Solar</div>	<div></div> <div></div> <div>Natural Gas</div>
<div></div> <div></div> <div>Aluminum</div>	<div></div> <div></div> <div>Gold</div>	<div></div> <div></div> <div>Trees</div>	<div></div> <div></div> <div>Bees</div>	<div></div> <div></div> <div>Rocks</div>
<div></div> <div></div> <div>Fruit</div>	<div></div> <div></div> <div>Coal</div>	<div></div> <div></div> <div>Cotton</div>	<div></div> <div></div> <div>Diamonds</div>	<div></div> <div></div> <div>Fish</div>

INSTRUCTIONS: Pick three natural resources from above then write down three examples of things that are made from each resource. The first one has been started for you!
