Next Generation Science Standards

K-ESS3-1

Use a model to represent the relationship between the needs of different plants and animals (including humans) and the places they live.

K-ESS3-3

Communicate solutions that will reduce the impact of humans on the land, water, air, and/or other living things in the local environment.

K-LS1-1

Use observations to describe patterns of what plants and animals (including humans) need to survive.

Massachusetts Comprehensive Health Curriculum

3.5

Identify the connection between food served in the home with regional food production.

13.4

Identify individual and community responsibility in ecological health.
