

WORKSHOP OVERVIEW | OCEAN FOOD CHAINS

Ocean Food Chains

1. Number each of the ocean creatures 1-5 below in order of where they fall in the food chain. Start with the smallest producer and go to the largest consumer.

Tuna Fish

Shrimp

Large Shark

Small Fish

Sea Grass

2. If the tuna fish ate small pieces of plastic that got washed into the ocean would the shark be affected? How?

3. How could you prevent trash from getting on our beaches and into our oceans?

4. Explain why is it so important to protect our oceans. Use facts from previous knowledge or your Change is Simple lesson.
