

WASTE | STUDENT GUIDE

Activity Overview:

It's your turn to be a teacher! You'll be teaching a younger student how to properly recycle AND why it's important!

ACTIVITY RUNDOWN

1. Once you know how to recycle in your school, fill out your recycling poster and color it!
2. Teach a younger student how to recycle correctly in your school. Use the guidelines below to help you teach them!
3. Give the younger student the poster you colored so they can hang it up and practice recycling!

What to talk about:

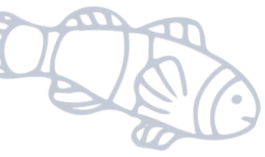

- a. The three R's (reduce, reuse, recycle) and what they mean.
- b. Why reducing our waste is important.
- c. How to recycle the right way (what can and can't go into the recycling bin)
- d. Why recycling is important for helping the Earth.
- e. How does working as a group make our impact bigger?

LET'S RECYCLE!

What goes in?

LESSON REFLECTION

WASTE
